skills	<p><i>React JS Framework</i> React JS development using webpack + babel + ES6 React JS development using redux for state management Experienced developing React on front end Experienced developing React on server side</p> <p><i>Node.JS Web Development</i> Node.js Frameworks - Express Node.js Experience - Advanced Level and extensive coding experience Package management and development setup using npm. Realtime REST API development using express and socket.io RHFatch - A wrapper for the fetch api - <a href="https://github.com/tuxrace/RHFatch">https://github.com/tuxrace/RHFatch</a></p> <p><i>Other Frontend Framework</i> Angular 2 + typescript Vue.js</p> <p><i>JavaScript Skills</i> Experienced coding using ES6</p>

Experienced coding using JS design patterns  
Understands the asynchronous nature of JS  
Experienced handling callbacks  
Experienced handling promises

*Server side templating*

Jade/Pug  
EJS  
Jinja

*Module Bundler*

Webpack

*Browser APIS*

LocalStorage  
WebSocket  
Fetch  
Promise

*PHP Web Development*

PHP MVC Frameworks - CodeIgniter, Zend Framework, CakePHP  
PHP - Advanced Level and extensive coding experience

*Web Design and Development*

HTML5, CSS, JavaScript, Jade, EJS, JSP, PHP, AJAX, XML  
JQUERY - Advance and extensive use of jquery on web based applications  
NODEJS - Advanced and extensive use of nodejs for developing web applications  
ANGULARJS - Advance and extensive use of angularjs on web based applications

*API Technologies*

*Facebook api, Twitter api, IBM watson api, Google places api.*

*Web Technologies*

HTML5, WebSockets, MongoDB, APACHE Webserver, Tomcat Webserver, FTP, SSH, Sendmail, CAPTCHA, Redis.

*Programming*

Node.js - Advance level (Node.js frameworks, express and koa)  
PHP - Advance level (PHP frameworks, codeigniter and cake)  
Ruby - (Ruby on rails framework)  
Java - Intermediate Level  
TypeScript - Intermediate level  
SQL - Advanced Level, table joins, stored procedures, stored functions

*Design patterns*

MVC Framework, Components Based, Singleton pattern, Model View Presenter

*Database*

MySQL, DB2, MongoDB, Oracle, MS Access, PostgreSQL.

*LINUX*

Ubuntu, RedHat, Fedora Core, Linux

	<p><i>Agile Practice</i> Scrum method, xtreme programming</p> <p><i>Source Code Manangement</i> GIT Shell based, Subversion SVN, Tortoise svn client</p> <p>System modeling UML Operating System Ubuntu, Mac OS, Windows XP, Linux, Fedora Core 3, Red hat Linux MS Office Word, Excel, Powerpoint, Access</p>
projects	<p><i>Web Applications Developed</i></p> <ol style="list-style-type: none"> <li>1. <a href="http://ion-landing.mybluemix.net">http://ion-landing.mybluemix.net</a> - chat team leader dashboard, technologies used: node.js, angular, ionic and mongodb</li> <li>2. <a href="http://con-cha.mybluemix.net/">http://con-cha.mybluemix.net/</a> - event matching app, technologies used: node.js, angular and firebase</li> <li>3. <a href="http://room-sched.mybluemix.net/">http://room-sched.mybluemix.net/</a> - room scheduler, technologies used: polymer, angular, node.js, and firebase</li> <li>4. <a href="http://flow-app.mybluemix.net/">http://flow-app.mybluemix.net/</a> - flood watch app, technologies used: material design, node.js, angular, rabbitmq and mongodb</li> <li>5. <a href="http://very-simple-app.mybluemix.net/">http://very-simple-app.mybluemix.net/</a> - simple CRUD app, technologies used: node.js, ejs, and mongodb</li> </ol> <p>My github projects <a href="https://github.com/tuxrace">https://github.com/tuxrace</a></p> <p><i>Libraries Developed</i></p> <p>RH.js - stand alone JavaScript ajax library - <a href="https://github.com/tuxrace/RH">https://github.com/tuxrace/RH</a></p>
trainings attended	<p><i>Ruby on Rails</i>, Web Development using Rails Feb 2011 Training covers ruby language, rails framework, agile, rails routing, db migrations, active records, scaling, caching, BDD testing with cucumber Training was held in Ubertor in Bonifacio Global City Taguig.</p> <p><i>SunJava</i>, Web Components Development using JSP and Servlets Dec 2006 Development of web based components using Java Technologies JSP and Servlets to build more effective and robust web applications, Training was held in Sun Microsystems Philippines Training Center in Makati.</p> <p><i>Element K</i>, IT Security Awareness Oct 2009 IT security training and seminar, on how to prevent security flaws and awareness of IT related security threats.</p>
